# A-Mark Precious Metals Launches Carbon-Neutrality Initiative in Partnership with the Prax Group

EL SEGUNDO, Calif., Nov. 11, 2021 (GLOBE NEWSWIRE) -- **A-Mark Precious Metals, Inc. (NASDAQ: AMRK)** (A-Mark), a leading fully integrated precious metals platform, has partnered with the Prax Group to offset greenhouse gas emissions (GHG) across A-Mark's businesses, with mitigation efforts primarily focused on the purchase of sustainability/decarbonization offsets, referred to as Verified Emission Reductions, (VER). With the current carbon offsets in place, A-Mark's A-M Global Logistics subsidiary, which represents substantially all of A-Mark's carbon footprint, can now be considered 100% carbon-neutral. A-M Global Logistics is A-Mark's Las Vegas, Nevada-based logistics and fulfillment center.

Through its five-year agreement with the Prax Group, which has offices in London, Singapore, and Houston, A-Mark will purchase VER originating from reputable pre-vetted developers of sustainable projects supporting multiple decarbonization initiatives globally, including renewable energy, emissions reduction technologies, energy efficiency upgrades, reforestation, and carbon sequestration.

"Our mission at A-Mark is to be responsible stewards of our investors' capital and the environment," said A-Mark President Thor Gjerdrum. "These principles are straightforward, fundamental and at the core of every decision we make. Our commitment to make our operations 100% carbon-neutral through the utilization of VER is not only a tangible demonstration of our belief in these principles, but also a ground-breaking initiative for A-Mark, and one that sets it apart from other precious metals providers.

"In addition to the positive impact our carbon-neutral operations should have on the environment, we also believe this initiative will broaden the pool of potential institutional investors to include those that have ESG and climate-related mandates, which could provide us with an improved cost of capital. In addition, going forward, we will continue to evaluate the ESG programs of our suppliers and servicers, making sure to select partners with programs in line with today's expectations regarding ESG.

"We are thankful for our collaboration with Ash Redkar and the Prax Group team for assisting us with this endeavor. After a thorough due diligence process, it was clear that their capabilities in structuring and executing actionable decarbonization strategies made them an excellent fit for A-Mark."

Ash Redkar, Head of the Prax Group's ESG/Energy Transition Team in Houston, said: "A-Mark shares our commitment to PEAR (People, Environment, Assets, Reputation) values and actionable ESG efforts. Prax is globally committed to working with clients to develop a

transactional execution framework that will leverage our expertise in carbon management and mitigation. We seek to position our clients like A-Mark and ourselves at the forefront of the global energy transition and sustainable innovation in the years ahead. In addition, we will continue to engage with our partners and customers in identifying new avenues to achieving a lower-carbon future.”
