

# A-Mark Precious Metals Reports Fiscal First Quarter 2015 Results

SANTA MONICA, Calif., Nov. 6, 2014 (GLOBE NEWSWIRE) --A-Mark Precious Metals, Inc. (Nasdaq:AMRK), a full-service precious metals trading company, reported results for its fiscal first quarter ended September 30, 2014.

## Fiscal Q1 2015 Overview

- Revenues declined slightly due principally to lower gold ounces sold, partially offset by higher silver ounces sold.
- First quarter gross profit remained under pressure due primarily to lower premium spreads on primary products.
- Demand for higher margin value-added products continued to enhance gross profit.
- Continued development of the Las Vegas logistics center, which remains on schedule.
- Secured lending products showed a strong increase in loan volume.
- Made an initial investment in a successful online retailer.

## Fiscal Q1 2015 Financial Results

Revenues were \$1.45 billion compared to \$1.50 billion in the same year-ago quarter. The decline was due to a decrease in the total number of gold ounces sold, partially offset by an increase in silver ounces sold during the quarter. The commodity prices for gold and silver decreased during the quarter, which also contributed to the decrease in revenues.

Gross profit was \$5.7 million (0.39% of revenues) compared to \$7.0 million (0.47% of revenues) in the year-ago quarter. The profit margin percentage decreased primarily due to lower premium spreads on the company's primary products, offset by sales of higher margin value-added products.

General and administrative expenses increased to \$4.2 million from \$3.6 million in the same year-ago quarter. The increase was primarily due to operational costs related to a new logistics center established to provide fulfillment services to A-Mark's customers. Expenses were also higher due to expenses associated with being a public company, including the addition of key personnel, and legal and accounting fees.

Net income totaled \$1.1 million or \$0.16 per diluted share compared \$2.4 million or \$0.30 per diluted share in the same year-ago quarter. The decrease was primarily due to lower revenues and gross margins due to lower levels of commodity price volatility.

## **Management Commentary**

"Our fiscal first quarter performance was in line with our expectations," said Greg Roberts, A-Mark's CEO. "These results reflect the uniqueness of our business model, which is

structured to provide a steady stream of revenues and profitability even in low volatility market environments. While these trends have impacted our performance thus far in the fiscal second quarter of 2015, we continue to build capacity to capitalize on periods of higher volume, as well as execute on strategic initiatives to enhance our baseline financial performance."

"Along those lines, we continue to introduce new higher margin products to respond to demand for our value-added product pipeline, as well as anticipate growth in loan activity by our CFC financing subsidiary," added Roberts. "Additionally, our expanded sales team is actively selling new turnkey service offerings to our existing customer base, including finance, storage, and delivery solutions. We expect these complementary services to help increase overall customer retention and drive incremental revenue and gross profit in fiscal 2015."
