A-Mark Precious Metals Reports Fiscal First Quarter 2016 Results

SANTA MONICA, Calif., Nov. 10, 2015 (GLOBE NEWSWIRE) --**A-Mark Precious Metals, Inc.** (NASDAQ:AMRK), a full-service precious metals trading company and an official distributor for all the major sovereign mints, reported results for its fiscal first quarter ended September 30, 2015.

Fiscal Q1 2016 Highlights (compared to the same year-ago quarter)

- Revenues increased 38% to \$2.01 billion
- Gross profit increased 152% to \$14.4 million
- Net income increased 371% to \$5.4 million from \$1.1 million
- Silver ounces sold increased 123% to 40.5 million ounces
- Gold ounces sold increased 102% to 895,685 ounces
- Trading ticket volume increased 50% to 28,910 tickets

Fiscal Q1 2016 Financial Results

Revenues increased 38% to \$2.01 billion from \$1.45 billion in the same year-ago quarter, driven primarily by an increase in the total amount of gold ounces and silver ounces sold during the quarter, which in turn was due to increased volatility and decreased commodity prices.

Gross profit increased 152% to \$14.4 million (0.72% of revenue) from \$5.7 million (0.39% of revenue) in the same year-ago quarter. The increase in gross margin was due, in part, to higher spreads on the company's primary products.

Selling, general and administrative expenses were \$6.4 million, an increase from \$4.2 million in the same year-ago quarter. The increase was due in part to performance-based compensation accruals and the operational cost of the Las Vegas logistic center established to provide fulfillment services to customers.

Net income increased 371% to \$5.4 million or \$0.76 per diluted share from \$1.1 million or \$0.16 per diluted share in the same year-ago quarter. The increase was primarily due to higher revenue and gross profits, offset by higher selling, general and administrative expenses.

Management Commentary

"The first quarter was exceptionally strong across the board, underscoring the earnings power of our unique business model," said A-Mark CEO Greg Roberts. "In fact, our Trading ticket volume increased 50% to near-record levels, and both our gold and silver ounce volume more-than-doubled compared to the same year ago period. These achievements

were driven by the unprecedented activity with our direct to consumer customers who service the online marketplace, as well as the strength in our core trading business.

“Q1 also marked the first full quarter of activity in our Las Vegas logistics facility. Since its opening, the facility has garnered significant interest from current and prospective customers who are now able to take full advantage of the facility’s value-added service offerings. Our financing subsidiary also posted a record number of loans outstanding, capitalizing on the growing number of borrowers in the market.

“This first quarter certainly meant a great start to the year. However, it’s important to keep in mind that historically our fiscal second quarter tends to be a slower quarter. Through the first six weeks of the second fiscal quarter we have seen a drop in our volumes and ticket counts, we attribute this to a combination of factors, including the US Mint’s declining sales numbers in October, supply and production constraints in our silver products, and a change in investor sentiment as major stock indices have rallied. If current market conditions remain the same, we could experience a lower performing second fiscal quarter when compared to the same year ago period.”
