- As of June 30, 2020, the number of secured loans decreased 74% to 717 from 2,806 as of June 30, 2019 and increased 67% from 429 as of March 31, 2020

Fiscal Fourth Quarter 2020 Financial Results

Revenues increased 96% to \$1.67 billion from \$850.2 million in the same year-ago quarter. The increase was primarily due to an increase in the total amount of gold and silver ounces sold and higher selling prices of gold and silver.

Gross profit increased 335% to \$28.0 million (1.68% of revenue) from \$6.5 million (0.76% of revenue) in the same year-ago quarter. The increase was due to higher gross profits from the Wholesale Trading & Ancillary Services and Direct Sales segments.

Selling, general and administrative expenses increased 21% to \$10.2 million from \$8.4

million in the same year-ago quarter. The increase was primarily due to increases in compensation expense (including performance-based accruals) of \$1.8 million, advertising expense of \$0.1 million, consulting costs of \$0.2 million, and computer software expense of \$0.2 million, which were partially offset by decreases in operating expenses of \$0.5 million associated with the Company's Direct Sales segment.

Interest income decreased 38% to \$3.3 million from \$5.3 million in the same year-ago quarter. The aggregate decrease in interest income was primarily due to lower interest income earned by our Secured Lending segment.

Interest expense decreased 24% to \$3.6 million from \$4.7 million in the same year-ago quarter. The decrease in interest expense was primarily related to the Company's Trading Credit Facility and loan servicing fees, partially offset by an increase in interest expense related to our product financing arrangements and liabilities on borrowed metals.

Net income totaled \$17.8 million or \$2.49 per diluted share, a significant improvement from a net loss of \$823,000 or \$(0.12) per diluted share in the same year-ago quarter.

Full Year 2020 Financial Highlights

- Revenues for the full year ended June 30, 2020 increased 14% to \$5.46 billion from \$4.78 billion for the full year ended June 30, 2019
- Gross profit for the full year ended June 30, 2020 increased 110% to \$67.0 million (1.23% of revenue) from \$32.0 million (0.67% of revenue) for the full year ended June 30, 2019
- Net income for the full year ended June 30, 2020 totaled \$30.5 million or \$4.31 per diluted share, as compared to net income of \$2.2 million or \$0.31 per diluted share for the full year ended June 30, 2019
- Gold ounces sold in the full year ended June 30, 2020 increased 21% to 2,181,000 ounces from 1,799,000 for the full year ended June 30, 2019
- Silver ounces sold in the full year ended June 30, 2020 increased 34% to 90.4 million ounces from 67.6 million ounces for the full year ended June 30, 2019

Full Year 2020 Financial Results

Revenues increased 14% to \$5.46 billion from \$4.78 billion in the same year-ago period. The increase was primarily due to an increase in the total amount of gold and silver ounces sold and higher selling prices of gold and silver, partially offset by lower forward sales.

Gross profit increased 110% to \$67.0 million (1.23% of revenue) from \$32.0 million (0.67% of revenue) in the same year-ago period. This increase was due to higher gross profits from the Wholesale Trading & Ancillary Services and Direct Sales segments.

Selling, general and administrative expenses increased 13% to \$36.8 million from \$32.5 million in the same year-ago period. The increase was primarily due to increases in compensation expense (including performance-based accruals) of \$4.5 million, computer software expense of \$0.5 million, and depreciation and amortization expense of \$0.4 million, which were partially offset by decreases in operating expenses of \$1.1 million associated with the Company's Direct Sales segment, and consulting expense of \$0.4 million.

Interest income increased 10% to \$21.2 million from \$19.3 million in the same year-ago

period. The aggregate increase in interest income was primarily due to interest income earned by the Company's Secured Lending segment and other finance product income.

Interest expense increased 10% to \$18.9 million from \$17.1 million in the same year-ago period. The increase in interest expense was related primarily to the Company's notes payable (which were issued in September 2018), loan servicing fees, product financing arrangements, and liabilities on borrowed metals, partially offset by reductions in interest expense related to our Trading Credit Facility, and the Goldline Credit Facility.

Net income totaled \$30.5 million or \$4.31 per diluted share, a significant improvement compared to net income of \$2.2 million or \$0.31 per diluted share in the same year-ago period.

Management Commentary

"The fourth quarter capped off a record year for A-Mark," said company CEO Greg Roberts. "Following the macroeconomic events in March that spurred the unprecedented volatility in the precious metals market, the fourth quarter was a period characterized by sustained and heightened demand and related product volumes. This consistency helped to drive sequential improvements in our key financial metrics, including a 25% increase in gross profit to \$28.0 million as well as a 58% increase in net income to \$17.8 million or \$2.49 per diluted share compared with our third quarter. The record financial results we realized for both Q4 and fiscal 2020 resulted in Return on Equity of 17.6% for the quarter and 30.2% for the fiscal year and demonstrate the attractiveness of our business model, which is designed to generate continuing revenue streams in normal market conditions and outsized profitability during volatile market periods.

"Our ecosystem of synergistic turn-key solutions has allowed us to capture significant value across the precious metals market and enables us to more effectively take advantage of supply constrained and volatile market conditions like those we saw in in the second half of the year. The strategic investments we've made over the last several years to expand capacity and operational capabilities have ideally positioned A-Mark to continue capitalizing on the current market conditions while increasing our market share and driving growth over the long term.

"Our operational and financial success in Q4 allowed us to enter fiscal 2021 with significant momentum. The market dynamics and trends we experienced in the fourth quarter have continued to date into fiscal Q1, highlighted by sustained demand and high volatility. These factors give us optimism for the year ahead as we look to take advantage of the opportunities in front of us. We believe our strong competitive position, robust platform, expanding customer base and diversified business model will help drive growth and profitability in the years ahead."

A-Mark's Board of Directors approved a special dividend of \$1.50 per common share. The special dividend will be paid on or about September 25, 2020 to stockholders of record as of September 21, 2020.
