# A-Mark Precious Metals Reports Fiscal Fourth Quarter and Full Year 2014 Results

SANTA MONICA, Calif., Sept. 26, 2014 (GLOBE NEWSWIRE) --**A-Mark Precious Metals, Inc.** (Nasdaq:AMRK), a full-service precious metals trading company, reported results for its fiscal fourth quarter and full year ended June 30, 2014.

## Fiscal Q4 2014 Highlights Compared to the Same Year-ago Quarter

- Fourth quarter and full year revenues decline due to market conditions
- Fourth quarter gross profit margin returns to normal level versus prior year volatility-caused spike
- Full year gross profit margin increases versus prior year
- Demand for Company's higher margin value-added products continues to increase
- New Las Vegas logistics center under development to enhance customer service

## Fiscal Q4 2014 Financial Results

Revenue totaled \$1.41 billion compared to \$2.10 billion in the same year-ago quarter. The decrease reflects lower market volatility and commodity gold prices compared to unusually high volatility in Q4 2013, as well as a decrease in the volume of gold ounces sold compared to the same period last year. The decrease was partially offset by an increase in the sales volume of silver ounces.

Gross profit was \$5.0 million or 0.35% of revenue, compared to \$11.5 million or 0.55% of revenue in the year-ago quarter. Gross profit in the year-ago quarter was unusually high due to a rapid decrease in precious metals prices and related supply constraints in silver products that together created higher product premium spreads.

General and administrative expenses were \$3.1 million, a decrease from \$4.0 million in the same year-ago quarter. The decrease reflects lower performance based compensation partially offset by higher public company costs.

Net income totaled \$1.5 million or \$0.21 per diluted share compared \$5.7 million or \$0.74 per diluted share in the same year-ago quarter. The decrease was primarily due to lower revenues and gross margins resulting from substantially lower levels of volatility in fiscal 2014 as compared to fiscal 2013.

## Fiscal 2014 Financial Results

Revenue was \$5.98 billion compared to \$7.25 billion in fiscal 2013. The decrease was primarily due to the decline in volatility and the commodity price for gold and silver, as well as a decrease in the volume of gold ounces sold compared to fiscal 2013. The decreases were partially offset by an increase in the volume of silver ounces sold in fiscal 2014.

Gross profit was \$27.4 million or 0.46% of revenue in fiscal 2014, compared to \$30.3 million or 0.42% of revenue in fiscal 2013. The decrease in gross profit reflected the decline in revenue for the period. The higher gross margin percentage reflects the increased demand for A-Mark's value-added products, as well as sales of higher margin unique bullion products to retail distributors.

General and administrative expenses increased to \$15.6 million from \$14.1 million in fiscal 2013. The increase was primarily due to the addition of logistics services costs, as well as higher administrative expenses, including new costs associated with being a public company.

Net income totaled \$8.3 million or \$1.09 per diluted share, compared \$12.5 million or \$1.59 per diluted share in fiscal 2013, with the decrease due to the decline in revenue and offset by higher gross margins.

### **Management Commentary**

"Our performance in the fiscal fourth quarter and full year demonstrated our ability to deliver significant profit even in a market environment with low volatility," said A-Mark CEO Greg Roberts. "This underscores the uniqueness of our business model, which provides a steady stream of revenue and profitability, with opportunities for additional profits from market volatility, trading volumes and the eventual increase in interest rates.

"These low volatility trends are continuing to impact our performance in the first quarter of fiscal 2015. However, we continue to focus on building capacity to capitalize on periods of higher volatility as well as focus on strategic initiatives to enhance our baseline performance."

"During Q4, we made strong progress in strengthening the higher margin segments of our business, including significant growth in loan activity by our CFC financing subsidiary, as well as realizing increased consumer demand for our value-added products," added Roberts. "Along those lines, we added six new value-added products to our pipeline for fiscal 2015, bringing our total pipeline to over 30 programs, up from approximately 10 programs a year ago.

"We recently finalized plans to build our first wholly owned and operated logistics center, and we expect to break ground on the project this fall in Las Vegas. The logistics center will allow us to offer our clients the full spectrum of turnkey services at one location, including shipping, vault storage and on premise financing. We expect the capabilities of the center to expand our customer relationships and increase retention, leading to more predictable revenue growth and improved gross margins."
