Fiscal Q1 2020 Financial Results

Revenues decreased 5% to \$1.48 billion from \$1.57 billion in the same year-ago quarter. The decrease in revenues was primarily due to lower forward sales of approximately \$0.4 billion, offset by higher gold and silver prices and higher gold and silver ounces sold.

Gross profit decreased 2% to \$8.3 million (0.56% of revenue) from \$8.5 million (0.54% of revenue) in the same year-ago quarter. The decrease in gross profit was primarily due to lower gross profits earned by the Company's Wholesale Trading & Ancillary Services segment, offset by higher gross profits earned by the Direct Sales segment (i.e. Goldline).

Selling, general and administrative expenses increased 7% to \$8.3 million from \$7.7 million in the same year-ago quarter. The increase was primarily due to an increase in overall compensation costs of \$0.2 million, and deductibles on insurance claims of \$0.3 million,

which were partially offset by a decrease in consulting costs of \$0.1 million.

Interest income increased 27% to \$5.8 million from \$4.6 million in the same year-ago quarter. The increase was primarily due to interest income earned by the Company's Secured Lending Segment and other finance product income earned by its Wholesale Trading & Ancillary Services segment.

Interest expense increased 45% to \$5.1 million from \$3.6 million in the same year-ago quarter. The increase was primarily due to higher overall average debt levels and interest rates associated with the Secured Lending segment's asset-backed notes issued in September 2018.

Net income totaled \$128,000 or \$0.02 per diluted share, compared to net income of \$1.5 million or \$0.21 per diluted share in the same year-ago quarter.

Management Commentary

"In the first quarter of fiscal 2020, we leveraged our diversified platform and long-standing relationships to capitalize on the modest increase in demand we experienced for A-Mark's physical products, which was incrementally higher than the demand we witnessed in the prior quarter," said company CEO Greg Roberts. "While we realized broad-based improvements across our business, particularly in the latter half of the quarter, our Secured Lending segment performed especially well, as evidenced by the 27% sequential increase in the number of loans outstanding and an increase in interest income from our higher average loan portfolio during the quarter. This performance, coupled with the increases in both gold and silver volume sold in Q1, drove sequential improvements in our financial results for the first quarter compared with last quarter, including a 74% increase in revenue, a 29% increase in gross profit, and profitability.

"Today, A-Mark has one of the most expansive product and service offerings in the industry, and we are continuing to invest in strategic growth areas to capitalize on and further increase our market share within the industry. This includes expanding our Secured Lending segment to respond to favorable trends in the market as well as investing in our company's digital transformation to drive additional operational and financial efficiencies across our business over the long-term.

"As we look forward, we are cautiously optimistic about our prospects this year, especially given the macro backdrop and upcoming election year. The investments and initiatives we have completed have positioned us well and give us increased confidence in our organization as whole. We believe these factors will support a stronger fiscal 2020 with more predictable growth and increased profitability."
